

Ghost Brackets earn 100% rider approval rating!

What better way to measure the quality and design of your products then to have them tested by the riders them selves?

CAO Distributing, Inc. is proud to announce that Ghost Brackets have been tested by the Motorcycle Riders Club of America and have earned their approval rating at 100% as featured in the MRCA section for the Rider Magazine.

Here is what some of the members who tested our products have to say:

Brooks Rayborne, Laughlin, NV:

"I don't see how the Ghost Brackets could be made better. The best features are the easy off, easy on access, plus they lock with a key."

Eddie Asberry, Washburn, TN:

"The installation instructions are easy to follow and everything fits perfectly. The quick release is a great feature to have with saddlebags."

We thank all members of the MRCA for their support and confidence in our products.
